Profile

First-year ICT student at Mahidol University who builds websites and tools for small businesses. Self-taught web developer with a first paid client within three months, four live web apps and a competition Honorable Mention. Seeking a junior software developer internship.

Education

Mahidol University, Faculty of ICT — 2026 to present (expected 2030)
Bachelor of Science in Information and Communication Technology

Relevant courses: Fundamentals of Programming (C), Discrete Structures, Introduction to Computer Ethics, Communication Strategies for Professional Life, Calculus, Technical English I

Potisarnpittayakorn School — Graduated 2025
Intensive English Program, Computer Science track (M.4–6); English Program, Science Robotics track (M.1–3)

Experience

Developer (part-time) | Fantuan, family restaurant — Aug 2026 to present

- Design a tool that combines Buzzebees POS, LINE MAN and Grab sales into one daily LINE report, within each platform's terms and Thailand's PDPA

Marketing Assistant (part-time) | Watch business — Mar 2026 to present

- Write listings, shoot and edit product photos, and post on Instagram, Facebook and TikTok; built Watch Poster to automate group posting

Freelance Web Developer | Self-employed — Mar 2026 to present

- Run client projects alone, from the first meeting to launch and maintenance
- Turn unclear client ideas into layouts with structured questions and Figma, Canva and v0 mockups
- Built 3–5 client websites, including a 14-page bilingual site for King Nylon, a Thai rope and fishing net manufacturer

Founder and Owner | Resale business (sneakers, then watches) — 2021 to present

- Sold 300+ items through Facebook and LINE, running sourcing, restoration, pricing and marketing alone, with average monthly revenue in the five figures (THB)
- Negotiate prices with suppliers and buyers, and review stock costs and profit monthly to plan purchases
- Pivoted from sneakers to watches in 2025 after tracking a drop in sneaker demand

Projects

- **King Nylon website** (HTML, CSS, JavaScript, Vercel): 14-page English and Thai site with a product catalog, quote form and SEO setup. king-nylon.vercel.app
- **AirSentinel**, senior year project, 2025 (Arduino, C++, sensors): led a team of 4+ building an autonomous robot that maps a building and reports air quality by zone to a UI; owned hardware, sensors and the interface
- **CarPlay Dashboard** (HTML, CSS, JavaScript, Geolocation): car-style phone dashboard with navigation, YouTube Music, weather and voice search. car-play-five.vercel.app
- **Watch Poster** (n8n, Apify, Telegram): posts one listing with up to 15 photos to many Facebook groups. **Finance Tracker**: categories, monthly charts, budgets and export

Competitions and Awards

- **MUICT-AST Tech Competition** (Mahidol University ICT), 2025: 8th of about 40 teams with Breaking Bonds, a digital board game (HTML, CSS, JavaScript, MySQL); led the concept in a team of 3
- **Web Development Competition** (university-hosted), 2024: Honorable Mention, 5th of 26, health and nutrition website, team of 2
- **SPU AI Prompt Mini Hackathon** (Sripatum University), 2025: competed in a timed AI and coding challenge
- **Good Citizen Award**, Potisarnpittayakorn School, 2025: sports day team Treasurer and Acting Vice President, managing the team budget

Training and Certificates

- TP-Link Enterprise Training (networking, CCTV, help desk), Mar 2025; Introduction to Data Analytics, True Digital Academy and Chulalongkorn University; Exploring Digital Technology Landscape, Chula MOOC, Sep 2025; Basic Python Programming, Change Education, 2024

Skills

- **Programming (intermediate):** HTML, CSS, JavaScript, Python, SQL and MySQL, C, Arduino and C++, backend basics, debugging
- **Tools:** Vercel, AI tools, Canva (advanced); Figma, v0, Blender 3D, REST APIs, n8n (intermediate)
- **Business:** negotiation, money and stock management, market research, digital marketing, product photography
- **Soft skills:** self-motivated, disciplined, adaptable, detail-oriented, resourceful, persistent
- **Languages:** Thai (native), English (limited working proficiency, B2)

Leadership and Activities

- **Senior Student Ambassador**, program open house events: guided prospective students and families through the Computer Science program
- **Teaching Assistant**, Muay Thai cultural exchange program for Chinese exchange students; Computer Science Club and Boxing Club
